Popust na troškove publikovanja radova u OA časopisima izdavača Brill

Međunarodni konzorcijum EIFL (Electronic Information for Libraries), čiji smo član, je potpisao sporazum sa izdavačkom kućom Brill koji omogućava istraživačima iz Srbije popust u iznosu od 50% na troškove objavljivanja rada (APC) u 314 časopisa ovog izdavača. Sporazum važi do kraja 2023. godine. Sistem automatski prepoznaje autore iz Srbije na osnovu navedene afilijacije i nije potrebno uputiti nikakav dodatni zahtev nakon što je rad prihvaćen za objavu.

Lista časopisa se nalazi na sledećem linku. Na stranici eIFL-a dostupne su detaljnije informacije u vezi sa publikovanjem rada.

Open Access Week 2020

"Open with Purpose: Taking Action to Build Structural Equity and Inclusion" tema je 13. po redu međunarodne nedelje otvorenog pristupa koja će trajati od 19.10. do 25.10.2020. godine. Iako donatori, univerziteti, izdavači i naučnici daju veliki doprinos otvorenoj nauci, i ovogodišnja tema još više naglašava njenu važnost i svrhu. Kako bi otvoreno postalo podrazumevano neophodno je kritičko i aktivno angažovanje institucija. Organizator ove manifestacije je SPARC (The Scholarly Publishing and Academic Resources Coalition) - globalna koalicija posvećena otvaranju podrazumevane vrednosti za istraživanje i obrazovanje.

Više informacija nalazi se na zvaničnom sajtu manifestacije www.openaccessweek.org, dok na portalu OpenAIRE možete pronaći listu organizovanih vebinara zakazanih za celu nedelju.

Pristup KoBSON sadržajima

(slajdovi 15-17)

Pristup KoBSON sadržajima

KoBSON će prepoznati odakle ste "došli" i:

- ako ste sa Akademske mreže, imate kompletan pristup KoBSON servisima
 - (nakon podešavanja proxy servera u vašem pregledaču BG, KG, NI, NS)
- ako ste van Akademske mreže (preko SBB-a, Yettel-a, MTS-a, ili bilo kog komercijalnog provajdera) potrebno je potpisati ličnu licencu za Proxy server NBS ("udaljeni pristup"; "pristup od kuće")

Početak / KoBSON / Načini pristupa

Načini pristupa

Kome je KoBSON dostupan

KoBSON portal dostupan je bez ikakve nadoknade i autentifikacije svima sa akademskog IP domena u Srbiji. Neophodno je u internet browser-u podesiti proxy server odgovarajućeg univerziteta.

Od 2004. godine korisnicima je omogućen i udaljeni pristup ("od kuće", posredstvom komercijalnog provajdera) i to pod istim uslovima kao i iz IP prostora akademske mreže. Praćenje korišćenosti KoBSONa ukazuje da oko 30% naših korisnika koristi informacione izvore izvan uobičajenog radnog vremena (noću, vikendom, praznikom). U ovom režimu do danas imamo registrovanih preko 20 000 istraživača iz Srbije.

Pristup sa akademskog IP domena

Sadržaji KoBSON-a dostupni su svim istraživačima koji rade u akademskim i naučnim institucijama povezanih na Akademsku mrežu Srbije / AMRES. Adrese proxy servera na univerzitetima u Srbiji su:

Univerzitet u Beogradu	proxy.amres.ac.rs	147.91.1.41-147.91.1.43
Univerzitet u Novom Sadu	proxy.uns.ac.rs	147.91.173.31-147.91.173.34
Univerzitet u Kragujevcu	proxy.kg.ac.rs	147.91.209.22-147.91.209.23
Univerzitet u Nišu	proxy.junis.ni.ac.rs	160.99.1.9

Pristup od "kuće"

Kompletan pristup KOBSON servisu moguć je i preko komercijalnih provajdera (ADSL, kablovski, dial-up i sl.). Jedini dopunski zahtev sastoji se u tome da korisnik potpiše licencu kojom se obavezuje da će se pridržavati pravila korišćenja. Pravo na ličnu licencu imaju svi stalno zaposleni u akademskim i naučnim institucijama čiji je osnivač Republika Srbija, kao i stipendisti Ministarstva nauke. Dobijanje licence je besplatno.

Popunjena i potpisana Licenca, predaje se Odeljenju za naučne informacije Narodne biblioteke Srbije ili bibliotekaru insitucije u kojoj je istraživač zaposlen. Kako se prilikom podnošenja zahteva za pristup KoBSOM servisima ne zahteva nikakva potvrda o zaposlenju, bibliotekar je taj koji grantuje da je korisnik zaista zaposlen u određenoj instituciji. Bibliotekar će zahtev proslediti nama putem e-maila, i nalog će biti otvoren istog dana. Istovremeno će korisniku biti upućen i e-mail sa podacima o dodeljenom korisničkom imenu i lozinki, kao i kratko uputstvo za korišćenje servisa. Nakon toga, prijavljivanje možete obaviti izborom opcije Udaljeni pristup u desnom gornjem uglu ekrana.

Najpoznatiji primeri su dve komercijalne baze podataka, tj. Web of Knowledge i Scopus, kao i besplatni servis Google Scholar." ¹
